

OBSTETRICS & GYNECOLOGY EHR

VersaSuite offers a complete EHR and Practice Management Solution for OB/GYNs, with features and functionality designed to automate and improve the unique clinical workflow of OB/GYN practices of all sizes.

OB/GYN SPECIFIC

- Key data at a glance, including parity, present gestational age, blood type & Rh, and more
- Complies with ACOG Antepartum Record requirements, with robust genetics & risk assessments
- Labs, plans, and education fully integrated with orders and counseling
- Integrated OB and GYN systems to seamlessly share patient history, meds, allergies, and labs, with data from both systems in one screen

SEAMLESS DEVICE INTEGRATION

- Import from almost any digital camera
- DICOM, IHE, HL7 compliant, including CCD & CCR import/export
- DICOM converter works in real time or batch-legacy workflows

CUSTOM TEMPLATE AND WORKFLOW DESIGN

- Our software is designed, customized, and configured to conform to your specific workflows
- Ability to create and configure as many templates as you need for unique use cases

ONC Certified HIT
2014 EDITION
COMPLETE EHR

VersaSuite Complete EHR v8.2 is 2014 Edition compliant and has been certified by ICSA Labs, an ONC-ACB in accordance with the applicable certification criteria adopted by the Secretary of Health and Human Services. This certification does not represent an endorsement by the U.S. Department of Health and Human Services.
