

DENTISTRY SPECIFIC EHR

VersaSuite offers a complete EHR and Practice Management Solution for dentists, allowing you to easily document extractions, bridges, and crowns, and is seamlessly integrated with the patient's entire health record.

DENTISTRY SPECIFIC

- Graphical Dental View, with teeth numbered for easy identification
- Click & drag documenting of extractions, bridges, crowns, and more
- Structured and formatted exam and procedure summaries

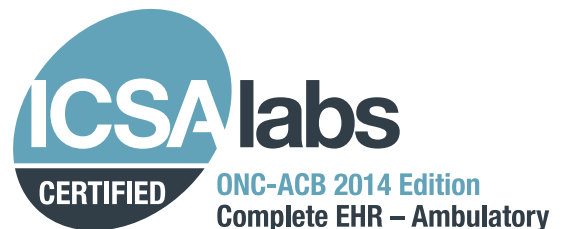

SEAMLESS INTEGRATION

- Automatically feed CDT codes to billing, and electronically order labs directly from the Dental EHR
- General medical data already on file automatically populates dental template
- Drug-drug, drug-allergy, & drug-formulary checking
- Adheres to all interoperability standards, including DICOM and IHE, HL7 compliant, plus CCD & CCR import/export

CUSTOM TEMPLATE AND WORKFLOW DESIGN

- Includes EHR, Practice Management, Inventory, PACS, Patient Portal, Marketing, Accounting, Human Resources, Payroll, and more

ONC Certified HIT
2014 EDITION
COMPLETE EHR

VersaSuite Complete EHR v8.2 is 2014 Edition compliant and has been certified by ICSA Labs, an ONC-ACB in accordance with the applicable certification criteria adopted by the Secretary of Health and Human Services. This certification does not represent an endorsement by the U.S. Department of Health and Human Services.
