

# ALLERGY SPECIFIC EHR

VersaSuite Allergy offers a seamlessly integrated PACS and EHR. Allergists can open dozens of studies with one click and write reports using all the power of VersaSuite EHR.

## ALLERGY SPECIFIC

- Powerful tracking tools record and retrieve allergy-specific details, including intradermal allergen injections and skin tests.
- Dynamic interface filters by any clinical or demographic field, including allergen type, reaction, age, and more
- Efficient data analytics, including graphs, and outcomes-driven reporting
- Instantly document test results, administer immunotherapy shots

## SEAMLESS DEVICE INTEGRATION

- Interface with Medison, GE, Phillips, Siemens, and many others
- DICOM, IHE, HL7 compliant, including CCD & CCR import/export
- DICOM-converter, works in real time or batch/legacy workflows

## CUSTOM TEMPLATE AND WORKFLOW DESIGN

- Our software is designed, customized, and configured to conform to your specific workflows
- Ability to create and configure as many templates as you need for unique use cases
- The encoder inside powered by TruCode™

ONC Certified HIT  
2014 EDITION  
COMPLETE EHR

VersaSuite Complete EHR v8.2 is 2014 Edition compliant and has been certified by ICSA Labs, an ONC-ACB in accordance with the applicable certification criteria adopted by the Secretary of Health and Human Services. This certification does not represent an endorsement by the U.S. Department of Health and Human Services.
