

HOSPITAL MATERIALS MANAGEMENT

VersaSuite's fully-integrated Materials Management System simplifies and automates inventory tracking, sales, and reporting for pharmaceutical, surgical, nutritional, optical, and more, with real-time updates and multi-site support.

EXTENSIVE REPORTING

- Fully configurable reports on sales and materials
- Customizable reports on stock levels, incoming orders, costs, & sales, purchase orders and reorders, and more
- Inventory reconciliation to identify and prevent theft

STREAMLINE & AUTOMATE

- Bar code scanning & label printing; interface with scanners from a range of manufacturers
- Fully integrated with other VersaSuite modules to eliminate dual entry
- Simplified setup imports material codes, inventory levels, and other information from third-party applications.
- The encoder inside powered by TruCode™

ENTERPRISE STRENGTH

- No inventory limits - store millions of items and materials
- Multi-site support with real-time materials tracking
- Seamless integration with other modules, decrementing inventory as it's used and generating alerts and purchase orders at specific levels

ONC Certified HIT
2014 EDITION
COMPLETE EHR

VersaSuite Complete EHR v8.2 is 2014 Edition compliant and has been certified by ICSA Labs, an ONC-ACB in accordance with the applicable certification criteria adopted by the Secretary of Health and Human Services. This certification does not represent an endorsement by the U.S. Department of Health and Human Services.
